Source: Turnbull, Colin M. (1965) The Mbuti Pygmies: an ethnographic survey. *Anthropological Papers of the American Museum of Natural History* 50(3):139-282.

Location: Congo Basin, Africa,

Basis of genealogical diagrams: 11. ResGrp1 Epulu Village (1). The genealogical diagram includes all of the people living in a single village. I divided the diagram into two parts (1a and 1b) because it would be unwieldy as a single graphic, and used a connector and pointer to indicate where they should be reattached to each other.

Number of living people: 224  
Number of data records: 303
